

It's here!

We are proud to announce that our hugely anticipated bike shelter has been installed in the car park of the village hall and is ready to receive.

The shelter is designed to hold up to 12 bikes or scooters.

The shelter is covered by the CCTV installed at the village hall but please remember to lock your bike or scooter to one of the toast racks every time that you use it.

Help the environment, your physical and mental health by choosing to cycle to the hall in future and encourage your children to do the same.

Watch out for incentives – coming soon!
